

Global PABX

Global PABX is a professional Business Telephone System which enables you to answer your business calls anywhere worldwide without toll charges. It is a flexible system that is easily upgradeable to allow for expansion or changes in technology. Advantages of a Global PABX include:

- Incoming calls can be answered anywhere worldwide without toll costs
- Free inter-branch calls
- Free call transfer between handsets – worldwide.
- Automated messages tailored to your requirements with multiple menus
- No expensive PABX equipment to purchase, maintain or become outdated
- Moving office requires no reconfiguration of your PABX – just move the handsets
- Phone handsets can be relocated anywhere – just plug the phone into the internet and your office calls automatically reach you – without any change to your PABX
- Significant savings on outgoing calls.
- All staff can be reached from one phone number no matter where they are in the world – even on their mobile phones
- We can supply phone numbers in virtually any city worldwide – customers can call you on a local number without per minute charges
- A wealth of add-on features are available including call recording, call history by extension, worldwide ring groups, voicemail to email, company directories, helpdesks, call queuing and time scheduling.

Telephone Handset Options

Cisco Business Phone

This single line phone includes a phone book, call history, call transfer and high quality speaker phone for conference calls. Also includes a 2.5mm headset jack & high quality speaker phone.

Cisco System Phone with Side Car

The Cisco 502G System Phone with side car allows the receptionist to easily monitor the status of other extensions – even extensions in other cities! The 32 button side car can be used for speed dial buttons or call transfer in addition to monitoring extension status.

Counterpath Softphone

Install this Softphone on any PC and you instantly have a PABX extension. With multiple lines, Call Transfer and Call Hold the Softphone is the ideal mobile solution. No matter where you are in the world you can answer your calls directly on your Laptop. Plug into the hotel's internet connection or even use a wireless connection

Regular Phone Adapters – SPA2102

These phone adapters allow you to utilise regular or cordless phones on the Global PABX. Plug in your cordless phone and make calls over the internet from any room in your building. Each adapter enables 2 separate extensions.
